(You may park in any spots NOT designated as ‘visitor parking’)

Directions: http://maps.rutgers.edu/location/lot-51 or enter one of the
other lots listed above.

Complementary CE program for Preceptors

Purpose:
The intent of this program is to provide continual preceptor development to pharmacists
who precept students in the Intermediate and Advanced Pharmacy Practice Experiences.
The morning session of this activity is intended to provide the preceptor audience with
updated information on best practices in interprofessional education. Breakout small group sessions for the participants, including topics related to student portfolios, seminar preparation, and journal club and statistical review will be highlighted. The second half of the program will focus on enhancing the preceptor’s knowledge on new drug updates from 2015 and updates to the 2016 adult and pediatric immunization schedules.

Ernest Mario School of Pharmacy Preceptor Development Program 2016
Learning Objectives for Pharmacists:
At the completion of this program, the participant will be able to:
1. Define interprofessional education (IPE) and the rationale for IPE in the experiential setting
2. Illustrate examples of successful implementation of IPE in hospital or community practice
3. Describe the use of student portfolios as a platform for documentation of progress during the Introductory, Intermediate, and Advanced Pharmacy Practice Experiences
4. Identify various patient outreach programs to engage student pharmacist participation in a community setting.
5. Describe four new drugs approved by the FDA in 2015
6. Summarize the drugs’ mechanisms of action, adverse effects, and potential drug interactions

Immunization Update
Learning Objectives for Pharmacists:
At the completion of this program, the participant will be able to:
1. Apply vaccine recommendations from the ACIP and CDC in pediatrics and adults over the span of ten years
2. Identify changes to the new immunization schedule in both pediatrics and adults
