The Pediatric Pharmacotherapy Residency, established by the pediatric faculty members at the Ernest Mario School of Pharmacy, will be designed to train a pharmacist with advanced knowledge and practice skills in pediatric pharmacotherapy.

This residency is unique because Rutgers has the advantage of a large faculty of practicing pediatric clinical faculty and the opportunity to practice in five different medical centers, each of which has different specialties.

The pediatric pharmacotherapy resident will start on July 1 for a 12 month appointment.

Rotations available

General pediatrics
Pediatric intensive care
Neonatal intensive care
Hematology/ oncology
Infectious diseases
Neurology
Emergency medicine
Pulmonary (inpatient)
Pulmonary (clinic)

The resident will spend at least 2 months consecutively at each of the four principal sites, focusing on different areas at each site.

An extra month will be spent at Morristown Memorial Hospital in the Pediatric and Neonatal Satellites for the purpose of learning the operations of a successful pediatric pharmacy staffing model.

One of the two months at Jersey Shore University Medical Center will be spent in the Pediatric Pulmonary Clinic.

One month will be spent at Robert Wood Johnson University Hospital learning basic elements of pediatric pharmacology research.

Responsibilities

- Active participation in daily patient care rounds, provision of drug information to the medical team, and medication therapy monitoring for the pediatric patients at the designated hospital
- Participation in at least four journal club presentations throughout the year
- Presentation of at least two Continuing Education Lectures
- Presentation of a seminar at the end of each practice site block
- Presentation of poster at the Midyear Clinical Meeting
- Completion of a residency research project
- Presentation of the residency research project at the Pediatric Pharmacy Advocacy Group Meeting and/or Eastern States Residency Conference

Teaching

The resident will earn an appointment with the Ernest Mario School of Pharmacy as a Clinical Instructor through participation as a teaching assistant in the Physical Assessment laboratory. The resident will teach in the Pediatric Pharmacotherapy elective and assist in precepting students on Advanced Practice Experience Rotations.

Benefits

Residents receive a comprehensive benefits package from Rutgers, The State University of New Jersey, including health care.

Staffing

There is no staffing requirement for the residency.
