Pharmacy Law Home Study for Pharmacists and Pharmacy Technicians

“Medication Therapy Management: A New Era in Pharmacy Practice”

(Knowledge-Based CPE Activity)

No sponsorship was received for this law program

Program Goal and Objectives

The purpose of this presentation is to improve medication adherence, improve Quality of Care and actively managing drug therapy and by identifying, preventing and resolving medication-related problems.

At the completion of this program, the participant will be able to: describe MTM and its objectives; define Comprehensive Medication Review (CMR) and its application to different practice settings; identify the eligibility for enrollment, targeted beneficiaries, and the number of participants previous years; discuss the application of the Affordable Care Act (ACA); describe the submission process and requests to change the policy from the point of view of the sponsors; discuss policy options that could support enhancing MTM programs.
